ETD TRAINING SCHEDULE ANNOUNCEMENT

Cancellation of NITTF Hub Ops and NOP OPSEC Courses October - December 2023

The Enterprise Threat-Mitigation Directorate (ETD) will adjust the training schedule for some courses starting in October 2023. In order to meet staffing and training content requirements, ETD has decided to cancel the following National Insider Threat Task Force (NITTF) and National Operations Security Program (NOP) courses that are scheduled for October – December 2023.

<mark>CANCELLED COURSES (October – December 2023)</mark>
NITTF – Hub Operations Course, October 31 – November 2, 2023
NOP – OPSE 2380, OPSEC Analysis, October 17-18, 2023
NOP – OPSE 2390, OPSEC Program Management, October 19, 2023
NOP – OPSE 2380, OPSEC Analysis, December 12-13, 2023
NOP – OPSE 2390, OPSEC Program Management, December 14, 2023

The following OPSEC courses will still take place on their designated date and time:
NOP – OPSE 1500, OPSEC and Public Release, November 14, 2023
NOP – OPSE 3500, OPSEC and the Internet, December 6-7, 2023

We understand that this unanticipated cancellation may interfere with scheduling and planning of your Insider Threat and/or OPSEC training goals. Unfortunately, we must take these steps to realign with mission needs to be able to sustain and continue to provide training to the community.

What if you are already registered?
If you were already registered for any of the courses in October – December 2023, *we will provide priority registration to you in the first offerings of these courses within the 2024 training calendar year.* Once the 2024 training schedule is finalized, an announcement will be issued to the community.

If you have any questions regarding your registration or anything training-related for the NITTF or NOP, please email us at ETD_registrar@dni.gov.
